

Dear Judiciary Committee,

I am writing today in the hopes that you will join me in **Opposing SB16, An Act Addressing Gun Violence and Juvenile Crime and HS5416, An Act of Purchasing Bulk Pistols and Revolvers.**

These bills seems to have little to do with finding solutions to our crime or violence problems, and more to do with attacking the rights of law abiding citizens. For example, it bans the purchase of firearms with “arm braces”. Can anyone name a single shooting in our state, or possibly the whole country, that ever involved a gun with an arm brace?

As well, the fact that this legislator is even considering when or how often a law abiding citizen purchases a pistol or revolver for sport or collecting is both unethical and unconstitutional. As a new gun owner and law abiding citizen of this State I do not deserve to have my constitutional right limited any more that you have already done. Please stop this House Bill immediately.
